

FOR IMMEDIATE RELEASE

## The X-SIGN and X-SIGN 4F – At Long Last, Powerful Lighting with a Stylish Look

Montreal - Richelieu introduces the X-SIGN and X-SIGN 4F, two new powerful surface-mount LED lighting fixtures characterized by their distinctive design and diffuser that guarantees perfect opalescence, a true revolution in the lighting world. These high performance fixtures are very bright and have a wide projection beam. In addition, a master dimmable touch-switch allows you to adjust the light intensity of the individual luminaire and all the luminaires connected to it offering the user complete control of the atmosphere of the space from a super brightness to a comforting glow depending on your mood.

Not only do the X-SIGN and X-SIGN 4F offer superior lighting capabilities, these stylish lighting fixtures can be easily integrated into multiple designs. Ideal for wall applications or under shelves in the kitchen, bathroom, living room or bedroom, these striking fixtures inspire unparalleled creative lighting designs for residential and commercial interiors.

Available in two colour temperatures, natural white and warm white, the very thin support and enhanced the diffuser, offered in a stainless steel and white finish are both elegant and modern-looking.

Quick and easy to install, the X-SIGN 4F is perfect for under-cabinet lighting and under-shelf lighting due to its 90 degree angle design. The X-SIGN's flat design opens up a world of new creative lighting possibilities including wall-mounting.
